

Tuesday 3 December (Hotel Okura, Amsterdam)

08:00-12:15	STUDY TOUR: visit of Tata Steel IJmuiden (fully booked)	TATA STEEL
12:00-13:30	REGISTRATION & NETWORKING LUNCH	Networking lunch Gold Sponsor AIREX ENERGY
13:30-14:00	SETTING THE SCENE <i>Introduction to heavy industry and transportation decarbonisation using biomass</i> Fiona Matthews, Director, Hawkins Wright	
14:00-15:15	BIOCARBON IN STEEL & OTHER METALS PRODUCTION <i>TataSteel: decarbonising steel production using biocarbon</i> Frank Van der Zon, Manager Biomass/Coal Procurement, Tata Steel <i>Supplying high fixed carbon biocoal to the steel industry: AIREX solutions</i> Patrick Lapointe, Chief Commercial Officer, AIREX Energy <i>Panel discussion</i> - Moderator: Rachael Levinson, Associate Director, Hawkins Wright - Steve Sirdey, Global Lead Buyer Alternative Reductants, ArcelorMittal - Frank Van der Zon, Manager Biomass/Coal Procurement, Tata Steel - Jason Sutton, CEO, Invica Industries - Patrick Lapointe, Chief Commercial Officer, AIREX	
15:15-15:45	NETWORKING BREAK	
15:45-17:00	BIOMASS SUSTAINABILITY <i>Sustainability of biomass use for energy generation: concepts, myths and facts</i> Martin Junginger, Full Professor Bio-Based Economy, Utrecht University <i>EU regulations on biomass sustainability: an overview</i> Irene di Padua, Policy Director, Bioenergy Europe <i>Demonstrating compliance to EU biomass sustainability requirements: case studies</i> Carsten Huljus, CEO, SBP <i>Offering sustainable pellets</i> Mihkel Jugaste, Chief Sustainability Officer, Graanul Invest	
17:00-19:30	NETWORKING DRINKS RECEPTION (Hotel Okura, Amsterdam)	

Platinum sponsors

Wednesday 4 December (Hotel Okura, Amsterdam)

08:30-09:00 WELCOME COFFEE

09:00-09:30 SETTING THE SCENE

Carbon markets and industrial decarbonisation
Louis Redshaw, CEO, Redshaw Advisors

09:30-11:00 BIOMASS IN HEAVY INDUSTRY

Decarbonising cement production using biomass
Gustav Melin, Chairman, WTS (BK Tech Group)

Providing syngas for glass production from biomass: Charwood Energy
Adrien Haller, President/Founder, Charwood Energy

Advancing copper melting process with biomass: a sustainable and economic approach
Thomas Bräck, VP & Head of Business Development, Meva Energy

New era for sustainable material production thanks to lignocellulosic and waste biomass
Ed de Jong, Vice-President Development, Avantium

Panel discussion

- Moderator: Mark McConnell, Director of Sales, Graanul Invest
- Gustav Melin, Chairman, WTS (BK Tech Group)
- Adrien Haller, President/Founder, Charwood Energy
- Thomas Bräck, VP & Head of Business Development, Meva Energy
- Ed de Jong, Vice-President Development, Avantium

11:00-11:30 NETWORKING BREAK

Networking break Gold Sponsor 

11:30-12:45 SUPPLYING BIOMASS TO NEW INDUSTRIAL USERS

Agricultural biomass, a key resource for meeting large-scale biomass demand
Victor Smith, Business Development, CM Biomass

Opportunity of supplying wood chips to new industrial biomass users
Svenja Bätz, Director International Business Development, Brüning Group

Supplying biocoal and biocarbon to heavy industry and transportation sectors
Damien Speight, Vice-President & Head of Green Carbon and Renewable Fuels, Javelin Global Commodities

Panel discussion

- Moderator: Fiona Matthews, Director, Hawkins Wright
- Svenja Bätz, Director International Business Development, Brüning Group
- Victor Smith, Business Development, CM Biomass
- Mait Kaup, CEO, Warmeston
- Damien Speight, Vice-President & Head of Green Carbon and Renewable Fuels, Javelin Global Commodities
- John Teal, Vice-President, TSI

Wednesday 4 December (Hotel Okura, Amsterdam)

12:45-14:00	NETWORKING LUNCH	Networking lunch Gold Sponsor	
14:00-15:50	BIOMASS IN TRANSPORTATION <i>Total Energies' experience in biofuel production</i> Michael Hecquet, Head of R&D Advanced fuels, Total Energies <i>Biomass gasification: a versatile pathway for biofuel production</i> David Longden, Strategic Business Development Manager, Circular Carbon: Gasification. Sumitomo SHI FW <i>Lighthouse green fuels - Alfanar: producing SAF using biogenic carbon in UK</i> Simon Owens, Engineering and Technical Director, Alfanar <i>Producing SAF using forest residues in Norway: BIOJET</i> Lars Frode Askheim, Founder, BIOJET <i>Pyrolytic oil for road transportation and shipping: BTGbioliquids solution</i> Gerhard Muggen, Managing Director, BTGbioliquids <i>Panel discussion</i> - Moderator: Rachael Levinson, Associate Director, Hawkins Wright - Michael Hecquet, Head of R&D Advanced fuels, Total Energies - David Longden, Strategic Business Development Manager, Circular Carbon: Gasification. Sumitomo SHI FW - Simon Owens, Engineering and Technical Director, Alfanar - Lars Frode Askheim, Founder, BIOJET - Gerhard Muggen, Managing Director, BTGbioliquids		
15:50-16:10	NETWORKING BREAK		
16:10-17:00	BECCS & CARBON DIOXIDE REMOVAL <i>Overview of CDR solutions and role of BECCS</i> Elisabeth Harding, Policy Manager, Negative Emissions Platform <i>BECCS done well</i> Alicia Newton, Senior Scientific Officer, Drax <i>Financing Carbon Removal Projects: Unlocking Capital for BECCS, BiCRS, and Beyond</i> Martin Kessler, Chief Business Officer, Flowcarbon		
17:00	CLOSING REMARKS
